# METALCASTELLO Division

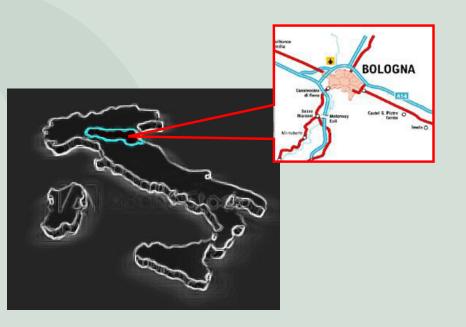

# **History and Location**

Set up in 1952 one of the major players in the world of gear manufacturing.

In 2014 we become part of the CIE Automotive Group

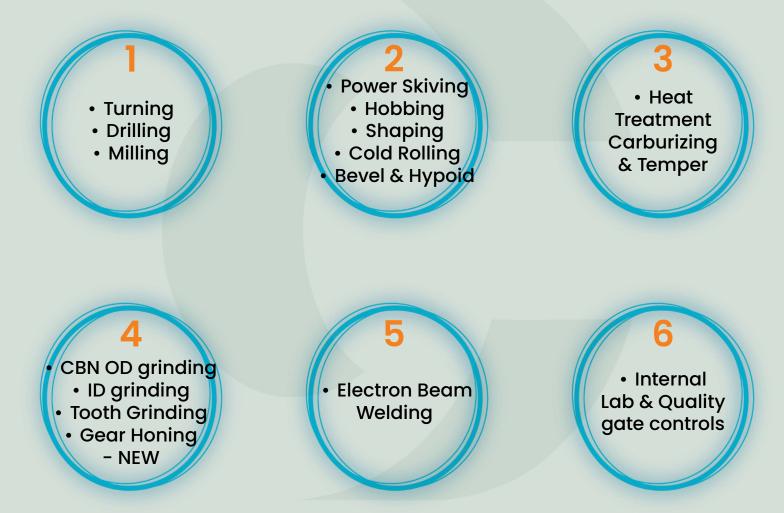

# In-house processes

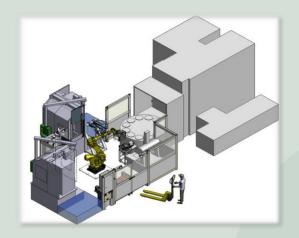

METALCASTELLO is vertically integrated with state of the art of production processes

N° 1 cell: Turning and Power Skiving line

N° 3 Stand alone Power Skiving

Dedicated to the production of internal and external teething on Ring Gears up to 590mm as external diamenter

Already installed

O/D Grinding Machines suitable for shafts up to 1000 mm in length and 360 mm or 460 mm in rotating diameter

Delivery: December 2022

Gear Honing Machine for Gears and Shafts mainly used for EV applications

Delivery: Q3/2023

# **Production Capabilities**

- Gears & Shafts for Gearboxes
- Ring Gears
- Differential Bevel Gear
   Set
- Timing Gears
- Planetary Gears
- Welded Components

#### **High flexibility:**

- Can produce small & big quantity
- Our Loading systems & machine set-up concepts are highly flexible, we currently have approx 1400+ different items in production.

#### **Best Technology:**

- New generation of machines for GEAR OPTIMIZATION & Quality (DIN 4).
- Top machines for inspection (CMM & Klingelnberg)
- Full cycle of production available in house
- Engineering supported by Pro-e & KISSsoft.

# **Customer Support**

We provide maximum support to all our customers with a complete service, thanks to the continuous R&D and processes innovation.

#### **CO-DESIGN**

Engineering department equipped with computer aided design technology (CREO) and Gear calculation process (KISSsoft)

#### **EDI CONNECTION**

Automatic system of schedules downloading directly in SAP

# PRODUCTION PLANNING

State of the art integrated MES and CRP (Capapity Requirement Planning)

#### **KPI PERFOMANCES**

Dashboard and daily reports to monitor all KPI's metrics, committed to deliver the highest results.

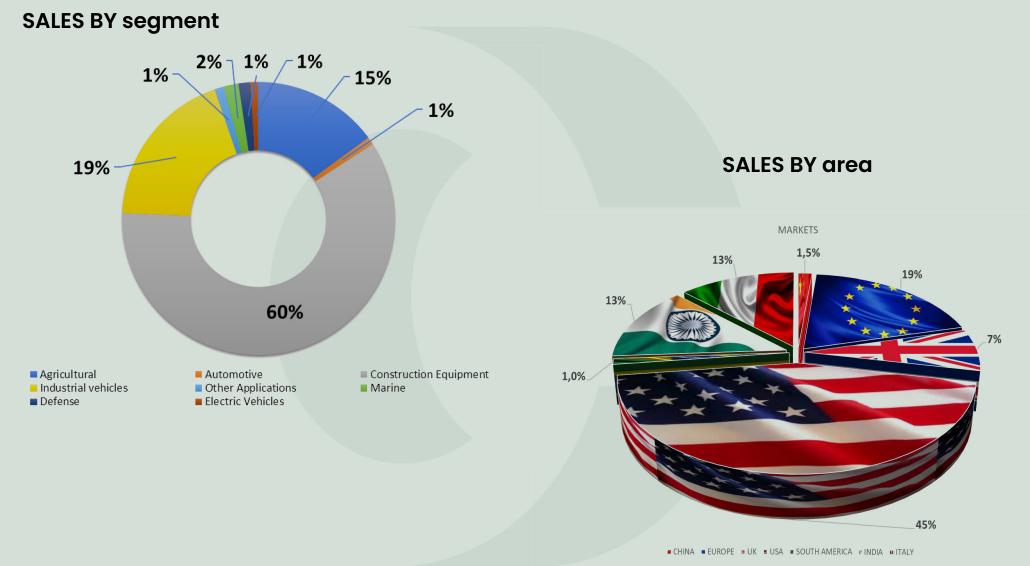

# CONTINOUS IMPROVMENT

Lean six sigma methodology, 5S, Kaizen

# Sales by segment & customer

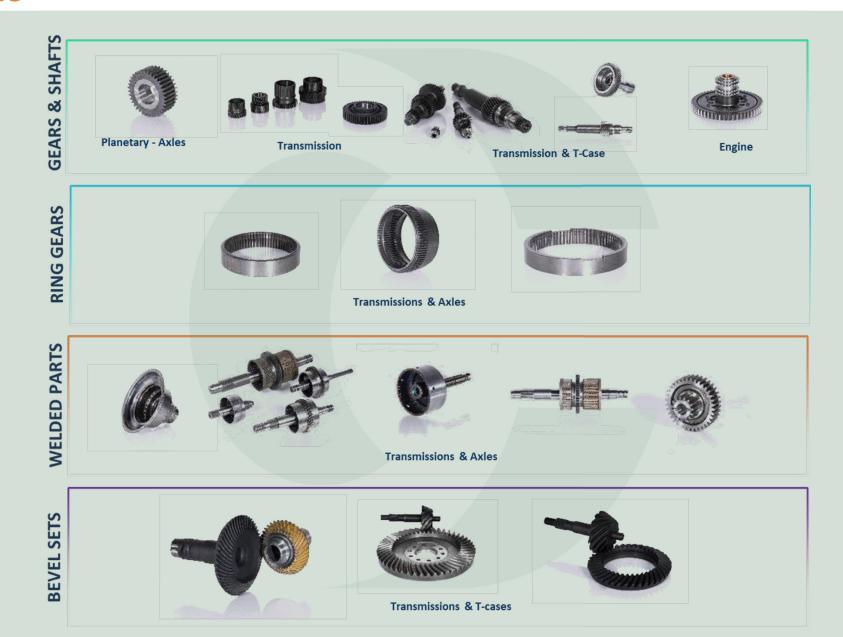

# CIEndia

OUR FOCUS
IS TO
KEEP GROWING
AT
HIGH PACE IN
INDIA
IN
COMING YEARS

- Investment Capacity
- Organic Growth
- Greenfields & Acquisitions
- CIE Technology Transfer to India
- New Products introduction
- Increasing Exports
- Engineering Co-Development
- Global Automotive Market State-of-the-Art Technology
- Global Platform support
